- *Customizable Inventory*
- *In-range Advertising*

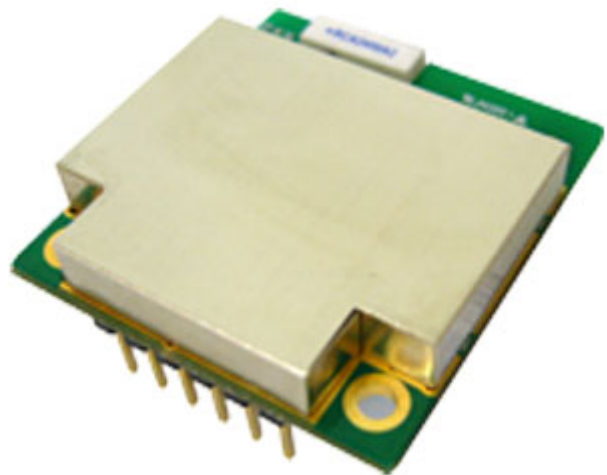

Benefits:

- *Make Payments easier for customer*
- *Provide transaction record*
- *Increased sales*
- *Ability to process payments in non-traditional settings*

Easy to use, Easy to use, customizable interface:

Compact and Reliable Technology: The Parani ESD-100

Tech Info:

The Bluetooth transaction system incorporates the latest Bluetooth technology. It uses the Parani ESD-100 Bluetooth radio to ensure reliable performance and the system can be operated on any Windows XP or later PC (including laptops). The low power requirements and small size mean it can be made a portable as you need!
